OBJECTIVES

The Asian Faculty Workshop (AFW) is organized under the Asian University President's Forum (AUPF) to foster collaboration and knowledge exchange among faculty members from member institutions. This year, the 3rd Asian Faculty Workshop (AFW) will be hosted by Petra Christian University (PCU) in Surabaya, Indonesia. The workshop's theme, **“Advancing Higher Education with AI: Innovations, Ethics, and Future Workforce Preparedness,”** highlights the transformative role of Artificial Intelligence (AI) in higher education, focusing on innovation, ethics, and workforce preparedness.

AI: Innovations, Ethics, and Future

Participants will explore how AI technologies can be effectively integrated into higher education, discuss the ethical implications of AI in academia, and strategize on preparing graduates for an AI-driven workforce. The workshop will feature a mix of lectures, interactive sessions, participant sharing, and hands-on workshops. Additionally, participants will take part in site visits to Polygon (a bike manufacturer), the Surabaya City Command Center, and the Surabaya Underground Museum.

KEYNOTE SPEAKER

Richardus Eko Indrajit is a professor of computer science who currently serves as the Rector of Pradita University in Indonesia. He graduated with a Bachelor's degree in Computer Science from the Sepuluh Nopember Institute of Technology in Surabaya and has earned several Master's degrees from institutions including Harvard University, the Maastricht School of Management, Leicester University, the London School of Public Relations, the Swiss-German

University, and the University of the People. He holds five doctoral degrees from the University of the City of Manila, the University of Information Technology Management in Poland, the State University of Jakarta, the Indonesian Defense University, and LIGS University. He has published more

than 250 books and hundreds of popular articles and journal papers. He is actively involved in assisting the Indonesian government across various ministries, mainly in areas related to information and communication technology, education, human resource

development, and national defense. In addition to his academic role and government support, he also serves as a consultant and advisor to various industries, such as healthcare, education, finance and banking, manufacturing, retail and distribution, transportation, military, and other services. He can be reached daily via email at eko.indrajit@pradita.ac.id or indrajit@alumni.harvard.edu, or by phone at +62-818-925-926. For more detailed information, please visit his website at <https://eko.id>.

SPEAKERS

Joshua Paundra, Ph.D is the Associate Director of Technology Business at Dayalima Group, where he focuses on integrating technology into human resource solutions to foster human-centric organizations in the era of AI. He holds a doctoral degree from the Rotterdam School of Management, Erasmus University, and has a deep interest in the intersection of technology and human behavior. He has published in top-ranked academic journals in psychology and sustainability. He is a university lecturer in business-related subjects. Joshua is actively involved in student career development, through the introduction of tools like the WISH (Work Interest Survey and Highlight) to support informed and purposeful career planning.

Didik Partono Rudiarto is the Director of Inixindo, a prominent IT training and certification provider in Indonesia. He holds degrees in Management from Universitas Indonesia and in Educational Technology from Universitas Pelita Harapan. His expertise encompasses areas such as IT Infrastructure Library (ITIL), IT Risk Management, Project Management, and Data Center Management.

SPEAKERS

Felix Pasila, Ph.D. is an Associate Professor in Electrical Engineering at Petra Christian University and CEO of eJourney.id, an edtech startup specializing in AI-driven learning and assessment systems. With a Ph.D. in Applied Artificial Intelligence from the University of Bologna, his work focuses on digital universities, adaptive learning, and educational innovation. He holds 40+ national patents, including 2 PCTs, and is a TEDx speaker. Felix leads projects on avatar-based assessment and AI for distance learning, combining deep technical expertise with a passion for transforming education in Indonesia and beyond through scalable, technology-enhanced solutions.

Felecia is the CEO and co-founder of StoryJourney.ai, an AI-powered platform that helps educators effortlessly create interactive learning videos. With over 20 years of experience in higher education and a deep passion for tech startups, she is on a mission to make a positive impact on the future of education.

William Irawan is the CEO and Co-Founder of Primeskills, an Indonesian educational technology company behind Elwyn.ai—an AI-powered learning platform that enhances soft skills and communication through realistic role-playing simulations. William is also an advisor to StoryJourney, a platform within the eJourney ecosystem that transforms traditional text-based materials into engaging 3D animated learning videos, aiming to empower educators and improve the quality of education in Indonesia.

SURABAYA CITY HERITAGE TOUR

Surabaya, the second-largest city in Indonesia, is a thriving city known for its rich history, dynamic economy, and warm hospitality. As the capital of East Java, Surabaya serves as a major hub for trade, education, and culture, blending modern development with historical charm. With its excellent infrastructure, diverse attractions, and welcoming atmosphere, Surabaya is an ideal destination for hosting international events, fostering collaboration, and experiencing the dynamic spirit of Indonesia. Surabaya is also famously known as Kota Pahlawan (City of Heroes) due to its significant role in Indonesia's struggle for independence. The city's strong patriotic identity continues to inspire generations and makes it an important center for historical and educational tourism.

SITE VISIT

Polygon Bikes, owned by PT Inera Sena and based in Sidoarjo, East Java, is one of Indonesia's leading bicycle manufacturers, known globally for its innovative designs and high-quality production. Producing close to a million bicycles annually across various cycling disciplines, Polygon combines creativity, technology, and efficiency

to stay competitive on an international scale. During the visit, Polygon Bikes will give participants the opportunity to immerse themselves in the complex ways that the company integrates strategies of innovation and sophisticated digital tools throughout the design and production value chain. This great experience promises to provide valuable information about the practical applications of advanced technologies in the framework of the prosperous industrial, thus clarifying the important types of skills and skills that future graduates will have to cultivate to maintain competitiveness and appropriate in an increasingly digital scenery.

SITE VISIT

The Surabaya City Command Center serves as the nerve center for urban management, where participants can observe how data-driven systems are used to monitor traffic, coordinate public services, and respond to city-wide issues. This visit will provide a valuable look at how technology enhances public administration and

Located beneath Alun-Alun Surabaya, **The Surabaya Underground Museum** offers a unique blend of cultural and historical experiences. This underground space functions not only as a museum but also as a vibrant cultural hub. During the visit, participants will gain insights into how modern museums can

act as dynamic spaces for education, cultural preservation, and community engagement. The integration of art, history, and public amenities showcases innovative approaches to creating interactive and inclusive learning environments.

Program Details

The Asian Faculty Workshop (AFW) is designed for faculty members from Asia University President's Forum (AUPF) member institutions.

Each institution is invited to recommend 2–3 faculty members to participate in the workshop.

Program Cost

The participation fee for the workshop is \$520 USD, with an early bird rate of \$500 USD for registrations completed before June 15, 2025. This fee covers accommodation, meals as specified, airport transfer, workshop materials, site visits and Surabaya city tour arrangement.

Participant Type	Fee with Accommodation (6 nights)	Fee without Accommodation	Early Bird Fee
International	USD 520	-	USD 500 (before June 15, 2025)
Domestic (Indonesians)	IDR 8,500,000	IDR 5,000,000	-

Optional Tour & Extended Stay

An optional Midnight Mount Bromo tour is available for participants at a cost of USD 85. This tour offers a chance to experience the breathtaking sunrise over the Bromo Tengger Semeru National Park, explore the volcanic landscape, and visit the famous Whispering Sands.

The package includes breakfast and a horse riding experience. Participants who wish to take this optional tour are advised to bring warm/winter attire (thick jacket, gloves, and ear covers), as temperatures can be very cold in the early morning hours. The AFW 2025 Program cost covers hotel accommodation for 6 (six) nights with check-in on 14 July (Monday) and check-out on 20 July (Sunday). If you wish to join this optional tour you will need to extend your stay. Participants who wish to extend their stay or add extra nights of accommodation should contact the organizing committee in advance for arrangements.

Registration and Terms of Payment

Participants are required to register through the provided link . Early bird registration and payment end on June 15, 2025, while regular registration remains open until July 4, 2025.

Travel Guidelines

Airport Transfer

The airport pick-up service requires participants to provide complete arrival details, including flight number, arrival time, and airline, to ensure a smooth pickup process. Airport pick-up is available on Monday, 14 July 2025, while transfers on other days are only available by prior arrangement. Upon arrival at Juanda International Airport, participants will be met at the international arrival exit, where a staff member will be holding a welcome board with their names for easy identification. Additionally, the airport transfer for departure home on Sunday, 20 July 2025, from the hotel will be arranged by the committee to facilitate participants' return journey.

Accommodation & Meals Information

You will be accommodated in a single-bed room at the hotel, with breakfast included. The program provides daily lunch at the university, while dinner will be served during the opening event on July 14, and the closing event on July 18. Additional meals will be provided during site visits and city tours. If you have any dietary preferences or food allergies, please inform the committee in advance to allow for appropriate arrangements.

Suggested Items to Bring

Please ensure you pack accordingly for comfort and convenience during your stay.

Clothing: Bring summer wear and smart casual attire for daily activities. For the Bromo trip, prepare warm winter clothing, as temperatures can be very cold in the early morning.

Medication & Personal Care: Bring any medication you regularly use, along with other essential personal care products you may need during your trip.

Currency: US dollars for exchange into Indonesian Rupiah (IDR) or an international credit/debit card for cash withdrawals and payments.

Participant Introduction & Experience Sharing

All participants will be invited to give a 3-minute self-introduction during the welcoming session, including details about their university, work experience, and background.

In a separate session, participants will share their experience with AI in learning and teaching at their respective institutions. Presentations using slides are preferred to enhance clarity and engagement.
